BROADSTONE BAPTIST CHURCH

Delighting in God, to the glory of God, for the good of all people

BUILDING PROJECT NEWS

BULLETIN NO: 5 RELEASE DATE: 25th January 2020

IT WENT ON LAST SO IT COMES OFF FIRST!

No prizes for cracking our headline because we are of course referring to the roof. Unsurprisingly with the roofing sheets being part asbestos our demolition specialists targeted their removal from the site ASAP.

A few days in and the scene has suddenly changed. The heavy machinery has arrived, and the real work has started. Hydraulic power is now set to play its part and an aerial platform arm allows the roof panels to be slid down away from the ridge line.

The individual asbestos sheets were then compartmentalised into a container to leave site for specialist disposal handling.

Thankfully the services were disconnected earlier than anticipated so the demolition team are on site five days ahead of schedule and they plan to have their work complete and the area clear by Friday the 30th Jan !!

Watch out for more BP bulletins next week.
