BROADSTONE BAPTIST CHURCH

Delighting in God, to the glory of God, for the good of all people

# BUILDING PROJECT NEWS

BULLETIN NO: 4 RELEASE DATE: 24th January 2020

## IT BEGINS! AND THERE'S NO GOING BACK!

Thursday 23rd January 2020 and the demolition contractors appointed by Matrod Frampton our appointed builders have arrived and set up site.

So suddenly it's a very busy Bailey's Hill as the vehicles from "Advance Demolition" come and go during the removal process.

All the usual services of electricity, gas, water and communication have been terminated so the way is clear for the primary stage to begin.

These days the demolition process is so much more refined which may sound like an oxymoron, but everything is organised sorted and recycled wherever possible.

Sad to say that the Phase One building is now "orphaned" because first to go was the link passageway. Funny how things come down quicker than they go up in the first place.

So now the electrical wiring has been stripped out and the real heavier work is about to get underway. The team of guys have now put down heavy duty reinforced black sheeting across the block paved forecourt to protect the surface from the tyres of the lorries and equipment that will be positioned on the site. A serious volume of concrete is about to be exported – maybe a new branch of Costa is coming!
